

AICOG 2026

14th January 2026, Wednesday

FULL DAY WORKSHOP

Fetal Surveillance: Achieving The Right Balance

Advisors: Dr Arup Kumar Majhi, Dr Hema Diwakar, Dr Rinku Sen Gupta, Dr Suman Mendiratta

Convenors: Dr Anshuja Singla, Dr Bharti Rajshekhar, Dr Shama Batra, Dr Uma Ram

PRE-LUNCH WORKSHOP IMAGING IN TWINS

Time	Topic
Session 1	
09:00-09:10 AM	Context setting
09:10-09:25 AM	Antenatal Monitoring of Low risk fetus –Uncertainty to Evidence
09:25-09:40 AM	Reducing Antepartum stillbirth – Low to Highrisk paradigm
Session 2	
Monitoring the fetus with growth problems Cross talk between Obstetrician & Fetal Med specialist	
09:40-09:55 AM	Timing the growth scan – evidence to practice
09:55-10:05 AM	Utility of Doppler & Antenatal NST in FGR–Invaluable tool
10:05-10:45 AM	Interactive Panel Case based discussions - SGA, LGA & Multiple fetuses
10:45-10:55 AM	Audience Interaction
Session 3: Understanding the Fetus with anemia	
11:00-11:15 AM	Fetal anaemia: Algorithmic Approach
11:15 -11:45 AM	Interactive Panel: Case based discussions - Fetal anemia Surveillance & management
Inauguration	
Session 4: Fetal surveillance with coexisting maternal disease	
12:00-12:50 PM	Interactive Panel: Case scenarios --Hyperglycemia, Immunological disorder, PE, Post-term
12:50-01:00 PM	Audience Interaction
01:00-02:00 PM	Lunch
Session 5: Fetal Surveillance in labour - Morphology to Physiology	
02:00-03:30 PM	Intrapartum fetal surveillance as work stations
	Decoding CTG –Beyond Decelerations
	Sub-acute & Acute Hypoxia – Appropriate responses
	Cord blood gases and interpretation
Session 6	
03:45-04:05 PM	Intrapartum Fetal surveillance to reduce Stillbirth
4:30 PM	Post test and wrap up
